Wil Cormier is an artist with an impressive and colorful history. Wil Cormier started his career as a commercial illustrator and has had the opportunity to sell to art collectors through Sotheby's in New York. His imaginative work on film posters has garnered him numerous awards in that industry. He also received many honors by the World Science Fiction Association for his creative book covers. Wil Cormier's enthusiasm for painting marine life goes back to the time when he was a teenager. During the summer, Wil worked as a lab technician for his father on an island off the coast of Georgia. His father, Dr. Milton Cormier, a biochemistry Professor at the University of Georgia studied bioluminescent sea creatures.
